Weekly Newsletter

The Den/ Nursery

This week we have begun to grow our learning and understanding around instructions and why time conjunctions are so important. In Maths, we have been deepening our learning on numbers to 20 and have been learning some new new methods when working out addition problems. Additionally, we have had a lot of fun learning more about toys from the past and making a few comparisons, as well as, learning about recyclable materials and why this is important for the planet - help us recycle more at home!

A gentle reminder too about our new EBook system that every child has access too - if you need any support, please feel free to ask!

Reception

Reception have had a very exciting week this week. They were shocked to find a video of a huge T-Rex visiting our Reception garden. They then learnt the story 'The Little Green Dinosaur' and were able to use actions to retell the story. In Maths, the children have been measuring length. They have been comparing feet sizes and measuring dinosaur footprints using cubes. They have enjoyed discussing dinosaurs and learning their names. Of course, our Valentine's disco was a highlight of the week. The dance moves and party outfits were fantastic!

Year 1

This week we have begun to grow our learning and understanding around instructions and why time conjunctions are so important. In Maths, we have been deepening our learning on numbers to 20 and have been learning some new new methods when working out addition problems. Additionally, we have had a lot of fun learning more about toys from the past and making a few comparisons, as well as, learning about recyclable materials and why this is important for the planet - help us recycle more at home!

A gentle reminder too about our new EBook system that every child has access too - if you need any support, please feel free to ask!

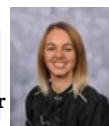

Year 2

In year 2 this week we have been innovating our non chronological report 'Meerkats'. We have been learning facts about different animals and how to put these into a non chronological report. In Maths, we have been learning odd and even numbers and multiplying and dividing by 2 and 10. In Science we have planted our own broad bean seeds and we will be observing their growth over time.

HPPS DSL Team

If you are ever concerned about the safety or well-being of someone at our school, please talk to one of the schools Designated Safeguarding Leads.

Weekly Newsletter

Year 3

This week in Literacy, Year 3 have been innovating their "Defeating a Monster" text. We have been working creatively to modify and add our own unique twists to the story, showcasing our developing writing skills. In Maths, we've been focusing on multiplying and dividing two-digit numbers by a single digit. We've also continued to enjoy our weekly CoJo sessions. These sessions give us the opportunity to complete missions that help us develop important life skills such as teamwork, resilience and communication skills. A highlight of the week has certainly been the Valentines Disco- we had so much fun dancing and partying with our friends!

Year 4

Year 4 have had a fantastic week finishing off their persuasive writing hot write. They were extremely convincing about how amazing North Tynesides is with fantastic activities and beaches. They are really enjoying their new text 'The journey to the Lonely Mountain', inspired by The Hobbit. We have focused on fractions during our Maths lessons, finding a tenth of a shape and converting it to a decimal. Year 4 loved their Valentines disco and showed their teachers exemplary behaviour!

Year 5

This week in Year 5, we have continued to explore fractions, where we have looked at ordering and comparing them. In Literacy, we have come to the conclusion of our suspense topic, which included writing our Hot Write. We have truly been blown away by the quality of both classes' writing. We have also wrote speeches to protest the use of children in mines in History. We have also enjoyed going into matchy settings during tennis in PE.

Year 6

This week in Year 6, we have finished our unit in Maths on Area, Perimeter and Volume. We have moved onto Converting Units. In Literacy, the children have innovated their diary entries from Anne Frank to Bruno - from the 'Boy in the Striped Pyjamas'. Next week, the children will be planning their own diary entries, we look forward to seeing what they can produce.
